Computer Science Engineering Student interested in Software Engineering and Machine Learning. Currently experimenting with Python and Golang.

EDUCATION

2017 - 2021

COMPUTER ENGINEERING, ST. JOHN COLLEGE OF ENGINEERING AND
MANAGEMENT, PALGHAR

SKILLS

- Programming Languages: Python, Go
- Object Oriented Programming
- Linux
- Git, GitHub
- AWS, GCP, Azure
- REST-APIs
- Machine Learning
- TensorFlow
- Keras
- Backend Development

CERTIFICATIONS

- Business Analytics and Digital Media (Coursera/Indian School of Business/July 2020)
- Digital Transformations (Coursera/Indian School of Business/July 2020)
- Google Cloud Platform Fundamentals: Core Infrastructure (Coursera/Google Cloud/July 2020)
- Getting Started with AWS Machine Learning (Coursera/AWS/May 2020)
- Google Cloud Platform Fundamentals for AWS Professionals (Coursera/Google Cloud/May 2020)

PROJECTS

- **Human-like Image Captioning**
A machine learning based semantic description generation system trained using Keras on the MS-COCO Dataset. ([GitHub](#))
- **BookSearchGo**
A simple search engine for books written in Go. ([GitHub](#))
- **MUQuestionPaperBot**
A Telegram Chatbot to fetch previous years' Mumbai University Engineering Question Papers, written in Python 3. ([GitHub](#))
